About Me

I'm a junior fullstack developer with a creative background in art, languages, and event management. I value clarity, empathy, and aesthetics in design and code alike. I enjoy learning new technologies and crafting solutions that make digital experiences feel intuitive and meaningful. I'm eager to find a professional environment that would let me evolve, learn, and build great things.

Professional Experience

- 2017-2024 – Freelance Translator
Duties: Translation of various literary works, songs, and poems

- 2016-2017 – Customer Care Agent (Arvato Bertelsmann, Berlin)
Duties: Moderation of social media

- 2014-2015 – Event Manager (Petersart Event Agency, Saint Petersburg)
Duties: Coordination of events, artist support, local contact person

- 2011-2015 – Independent Performance Artist
Duties: Concept and execution of performance events, performance design aqnd management
